**Count Down: 24 Days until the 5K**

**Running Tips 4/11/07**

Avoid or treat shin splits by getting rest and cross-training instead of running. Then resume running gradually for short distances and cross-train between runs. Also ice and stretch.

You can eat, really you can. Not eating enough can drastically decrease your performance – or worse – your health. If you eat sensibly and maintain an ideal weight for your body type, you'll look great and run strong.

Need a motivation boost in your training? Training expert Jeff Galloway suggests that you enter a race, like the May Classic 5k and Fun Run. Fill out the entry form and mark the date on your calendar. The impending race will motivate your daily runs.

Tips information gathered from Runner's World ([www.runnersworld.com](http://www.runnersworld.com))
